A great work is going on in North

is, without question, the greatest remedy for catarrial trouble ever composed, was to be offered to North Adams the number of people turned out and admitted themselvs victims of the obstinate and hitherte incurable discrse, was astonishing. They came in scores, in hundreds; and unhesit-ingly announced that they suffered, and had for years hopelesly suffered, from hawking, hemming, bad breath, shme in the throat, dropping of offensive matter into throat, headnches, gagging, choking, neusea, stuffed feeling and increasing deaf-ness. They had catarrh in every form, from cute attacks that can be cured in a week, to the worst cases of chronic catarrh the most presistant disease in the world, that yields to nothing but California Catarrh Cure.

Already its wonderful cases are familiar

in North Adams. Here's one:
Mr. A. E. Darling, 45 Church st., says;
I have had extarrh for many years, and
have received more benefit from California Catarrah Cure, which was precured at a husband Poter, and two children loseph Burlingame & Darby's, than from anything else I have ever used. It has greatly will be held from Notre Damucharch Friedred my head, and completely restored the sense of taste which I had not had for everal years. I certainly consider C. C. Plunker, the chairman of the committee on constitution and below. stitution and by-laws, read his report which was accepted. The quartet gave another song and Mr. Hatton recited. C. T. Plunkett read a fine paper on "Foreign Competition." The debate was then feommenced on the question "Resolved, That the United States. would be Benefitted by a European War." The disputants were Henry L. Harington and Charles M. Campbell affirmative. Peter P. Smith and W. S. Morton nega tive. Some fine arguments were pro-duced by both sides and the spirit of the

disputants was exciting. The decision was taken by a vote of the house and rewas taken by a vote of the house and re-sulted in a victory for the affirmative, Another selection by the quartet closed the meeting. The meeting was the first held by the club since its organization, and was well attended. The singing was especially good and Mr. Hatton's recita-

tions were, as usual, very fine. The next-meeting will be called by the president.

Wednesday morning Chief Curran arrested Bort Oakes for obtaining money under false pretenses. The defendant was selling potatoes and last week he calle it A. W. Saffard's home on Cranda at A. W. Safford's home on Crandall street and told Mrs. Safford that her husband ordered him to leave four bushels of band ordered him to leave four busness of potatoes and collect the money for them. The lady took the potatoes and paid him \$2. He also saw Mrs. Albert Harwood on the street and asked if she wished to buy and she said to inquire of her husband at his photograph studio on Dean street, Accordingly Oakes called and told Mr. Harwood he had left two buttles of pota,

Another Wrestling Match.

Another wrestling match has been arranged to take place in Kochler's Turn hall on Summer street Wednesday evoning, April 14, between James Gilligan of Haverhill and Robert Heaker of Lawren for a \$1000 purse. They will wrestle Lancashire rules barring strangle and full Nelson holds, Gilligan is the recognized world's champion at 128 pounds and Reakes is said to be the champion 140 pound man. Renkes was at Adams Wed-nesday morning and posted \$250 with Adams sports who are backing Gilligar and the money, \$500, is now placed in the Greylock National bank. Lawrence sports are sure of their man winning and will be ready to back him strongly on the night of the match. Gilligan is at the Greylock house and is under a caroful trainer. The match is sure to be a scien-tific and well contested one and will be well worth secing.

To Have a Uniform --- School House Question Not Yet Settled---Signed to Play Ball---Tuesday Evening

The School House Question

According to the talk new heard about town the school house question was not entirely settled by the action of the town last Monday. At the town meeting th question of a site was fully discussed and it was voted by a good majority to locate the school on Southworth avenue. Authority was given to borrow \$4,000 to pay for the lot and a committee was appointed to prepare plans for the building. Apperently the matter was effectually disposed f, but the meeting was adjourned to May 8, and now there is on hand a good sized agitation in favor of "reconsidering" the action of Mou-day. There is a good deal of projection against the Southworth ave-Lie site on one and of the lowness of the ground, a those proceed to the location say the call be more or less trouble from more if the building is placed there. Other well but it is not a central loca-tion for a chof the population as will be most likely to patronize the high school Some of the opponents favor the Mather property on Main street at the head of Cole avenue, which comprises two a cres and others think the town should buy the Walden property on Spring street, adjoinwaten property on spring street, adolaing the present high school. This would
make a fine lot for the building, and it is
argued that the pupils could have the old
college ball ground in the rear for a piny
ground, as they do now, atthough the
land is owned by the college. There are still others, especially among the more conservative element, who feel that it will hardly be wise to attempt to undo at an adjourned meeting what was done at so full a meeting as that of Monday. The adjourned meeting as that of adjourned meeting will probably not be so largely attended, and while it will have the right to revoke the decision, it is feared by some that such action would not be favorably regarded by voters who Wore in favor of the site selected and who might not be at the adjourned meeting. Butif the agitation continues as it has begun the chances will be in favor of a large attendance, and the struggle over the question will be fully as vigorous as it was last Monday. In view of the present state of feeling the selectmen have decided not to purchase the proposed site until after the adjourned meeting.

Very Enjoyable Campure.

The campure held Wednesday night by E. P. Hopkins post was largely attended and was a most enjoyable occasion in every particular. About 75 old soldiers sociate members. The company met in Grange hall and murched at 9 o'clock to Grand Army hall, where dinner was served by the Woman's Relief corps. Acting Chaplain W. H. Smedley offered prayer. The first speaker of the evening was Department Commander John M Dan of Fall River, who spoke of the Grand Army, its objects and its efficiency and emphasized the value of the service and amphasized the value of the service which the country received from the soldier. He said that the Grand Army believes in arbitration, but not unless we can have it with honor. Senior Vice-Department Commander John E. Gilman of Boston followed with an elequent speech. Judgo P. H. Casoy of Lee, Superintendent W. H. Mitchell, Com-mander H. A. Tower of North Adams Charles S. Cole, George B. Waterman and B. F. Bridges were among the other peakers and the remarks of all were timely and interesting. Commander Tower said every post, no matter how small, should do semething to perpetuate the memory of the members after they are gone, if nothing more than to estab-lish a public drinking fountain or plant a few trees. He said not all posts erect buildings or monuments, but there was not one which could not do something of this kind which should remain to keep the memory of the organization green. The sentiment met with the hearty

approval of every hearer.

The supper served by the indies wasnil that would be desired and the gathering was one of the largest and pleasantes ever held by Hopkins' post. Commis-sioner I. S. Powler presided and the company did not separate till nearly I o'clock Commander Dean and Senior Vice Com-mander Gilman were pleased to find the ost in such viscorous and flourishing condition. They left for their homes on the 1.37 n. m. train, carrying very favorable impressions of Williamston and its Grand

About the License Vote.

TO THE VOTERS OF WILLIAMSTOWN: cast, with the result that the town is to have no-line, to compare it with the vote of last year; also to compare it with the vote vote cast by the same ballots for the selectment his year. The comparison shows decidedly a lack of interest in the question by the citizens who are against license. when they vote. The figures I quote are those given by the Transcript as the special ballot of last year and this year. The number of votes cast for license in

year was 240. The number cast this year was exactly the same, showing that the license forces are doing their duty by their cause. The votes cast last year for nc-liceuse were 418. The votes cast this year were 371. This shows a weakening of 75 votes.

Why this falling off? You answer that

probably the total number of ballots cast this year was smaller. I regret I have not the figures of the total number of bulnot the native of the cost hamber of the bols cast last year but notice the number of tallots east this year for selectmon, which strangely is always the burning question at town meeting: 356 for one candidate and 381 for his opponent, mak-ing 787 bellots cast in all. But of this number only 620 voted on the license question; 147 voters ignored it. This is a large number to give no head when men are formally asked to express their opin-ion on this matter, which is of vital in-terest to our town. No doubt many overcoled it for the question is printed, unlooked it, for the question is printed, infortunately, at the very end of fite bullot. Next year we shall probably have greater needs for no-license votes, and we would ask that the 147 be prepared to have samething to say on this subject.

Boiling Sap by Steam.

from Vassor college.

This is an age of progress and the plan of boiling sap by steam is a long step in advance. Titus Stone has on exhibition at Orosler's sugar place the first steam evaporator in town and it attracts a large number of visitors. small portable boiler is used, but the evaporator is a peculiar looking affair. It is a long pine box about a foot wide and some Effect inches deep with a partition through the center. Running through the bottom of thisbox is two copper half-inch pipes, cor-nected with the boiler. The sap is let in at one end and as soon as it strikes these pipes it begins to boil rapidly. After the first start an ingenious arrangement reg-clates the quantity of sap lat in and a faucet at the other end allows a continuous alream of syrup to flow ready to be put into cans. Mr. Stown states that he has been able to adjust the flow of sap It is well, now that the vote on the lesses question for this year has been in the adjustment was necessary.
